	Appointment of Project Engineer (PE)				
Form Ref	TFW/PMO/02009/F0042A	Issue Date	16/2/22	Issue*	1

*Issue number aligned with mapped NR form

Details of Appointment	
Project/Programme/Portfolio No: Package 8	Phase(s)/Stage(s): E - F
Project/Programme/Portfolio Title: Taff's Well Depot Design & Build	Discipline: Civils
Review The Designated Project Engineer (DPE) shall review the proposed PE candidate against the criteria listed below. The DPE may also use an appropriate tool to assess the complexity and scope of the Project / Programme in order to determine the requirement for further competences. Note: See NR/L2/RSE/02009 clause 10 and NR/L2/RSE/02009/01 for more detail.	

Criteria		Supporting notes
Able to demonstrate they meet the performance and knowledge requirements of 1) PE01 as detailed in B.5 of NR/L2/RSE/02009/01 appropriate to the project specific requirements or 2) AIW performance knowledge requirements of the PE ATW	YES / NO*	This can include the candidate providing a copy of their Parent Companies Competence Management systems equivalent. The DPE should check relevant details as required. Consideration should be given to the project specific requirements and complexity.
Able to demonstrate discipline specific technical capabilities in line with an approved framework for that discipline.	YES / NO*	The DPE should check an appointed assessor has assessed the PE against discipline specific technical capabilities in line with an approved framework for that discipline.
*Any requirements and arrangements for mentorship.	YES / NOT REQUIRED	If the candidate can demonstrate fully that they meet the performance requirements of ATW or PE01 and all relevant discipline technical competences, then 'not required' can be noted.
Relevant experience and performance on similar projects: See supporting CV for past projects experience		The DPE should discuss which types of projects the candidate has relevant experience of and note example projects etc as necessary.
A clear, documented understanding of the scope of work to which the PE appointment applies (noting the discipline/responsibilities above).	YES / NO	Examples of this could include a Route Section Delivery Plan, Package Delivery Plan, Requirements Management documents and the EAP and EMP as appropriate.
Understanding by the PE of the design and/or construction integration methodology being implemented for the project as specified in the EMP/EAP and NR/L2/RSE/02009 Clause 7.	YES / NO	This is so the duties, responsibilities and workload of the PE role are fully defined.
Adequate availability of resources and time to undertake their duties.	YES / NO	The DPE should discuss the number and status of other projects the PE is appointed to.
Understanding and ability to judge when urgent or immediate action is necessary for safety reasons.	YES / NO	The DPE should discuss the candidates understanding of relevant escalation methods for safety related issues.
