	Appointment of Contractor's Responsible Engineer (CRE)					
Form Ref	TFW/PMO/02009/F0040	Issue Date	16/2/22	Issue*	3.0	

*Issue number aligned with mapped NR form

Details of Appointment		
Project/Programme/Portfolio No: Package 8		Project/Programme/Portfolio Title: Taff's Well Depot Design & Build
Phase(s)/Stage(s): E - F	Contractor: Arcadis	Discipline: Structures
Review The CEM shall assess the CRE, and the Project Engineer (or DPE) of the appropriate discipline should review the proposed candidate against the criteria listed below. The DPE may also use an appropriate tool to assess the complexity and scope of the Project / Programme in order to determine the requirement for further competences. *If applicable, the competence assessment should consider if the CRE is also undertaking the role of Temporary Works Coordinator. If the position is required but, being nominated to be undertaken by another, then the assessment of the nominated persons' TWC competencies shall also be checked by the CRE at this point. The appointment of any TWC and Temporary Works Supervisor(s) (TWS) is to be in accordance with the requirements of BS5975 and the AIW Temporary Works Strategy. Note: See NR/L2/RSE/02009 clause 10 and NR/L2/RSE/02009/01 for more detail.		
Responsibilities		
Design – Structures D-CRE		YES / NO
Construction		YES / NO
*Temporary Works Coordinator (TWC) role required		YES / NO
CRE undertaking Temporary Works Coordinator role		YES / NO / not applicable
TWC Name (if not undertaken by CRE):		Patrick Asiedu
Criteria	Supporting notes	
Able to demonstrate they meet the performance and knowledge requirements of 1) CRE01 as detailed in B.5 of NR/L2/RSE/02009/01 appropriate to the project specific requirements or 2) Supplier performance knowledge requirements of the Contractors Responsible Engineers (ATW).	YES / NO*	<i>This can include the candidate providing a copy of their Parent Companies Competence Management systems equivalent. The CEM should check relevant details as required. Consideration should be given to the project specific requirements and complexity.</i>
Able to demonstrate discipline specific technical capabilities in line with an approved framework for that discipline.	YES / NO*	<i>The CEM should seek discipline specific support/advice from within their own organisation and/or AIW if the CRE discipline is not their 'core discipline'.</i>
*Any requirements and arrangements for mentorship. Mentorship plan will be created supported by Tristan Ralph (Senior Technical Director at Arcadis)	YES	<i>If the candidate can demonstrate fully that they meet the performance requirements of CRE01 and all relevant discipline technical competences, then 'not required' can be noted.</i>
Relevant experience and performance on similar projects: See supporting CV for experience and past projects	<i>The CEM should discuss which types of projects the candidate has relevant experience of and note example projects etc as necessary.</i>	
A clear, documented understanding of the scope of work to which the CRE appointment applies (noting the discipline / responsibilities above).	YES / NO	<i>Examples of this could include a Route Section Delivery Plan, Package Delivery Plan, Requirements Management documents and the EAP and EMP as appropriate.</i>
Understanding by the CRE of the design and/or construction integration methodology being implemented for the project as specified in the EMP/EAP and NR/L2/RSE/02009 Clause 7.	YES / NO	<i>This is so the duties, responsibilities and workload of the CRE role are fully defined.</i>
Adequate availability of resources and time to undertake their duties.	YES / NO	<i>The CEM should discuss the number and status of other projects the CRE is appointed to.</i>
